Difficulty Level: Hard

Dog Pumpkin Carving Stencil

Steps:

1. **Prepare the Stencil:** Print a pumpkin carving stencil. Cut it out and tape it to the front of the pumpkin.
2. **Transfer the Design:** Use a marker to trace the design onto the pumpkin by poking holes along the stencil lines. Remove the stencil when done.
3. **Carve the Design:** Carve the black areas out by carefully cutting along the marked lines with a pumpkin carving tool. Tip: Start by carving the inside areas and work your way out.
